OUR EXPERTISE

'Purity in each Drop'

1

1. WATER FILTER MEDIA REPLACEMENT

We provide professional [water filter media replacement](#) services, using high-quality, industry-grade materials to ensure your filtration system runs efficiently. Our expert team ensures improved water purity, enhanced performance, and extended system lifespan with every service.

2

2. 5TH STAGE WATER TANKS CLEANING

Supriya Water Technology provides professional [5th stage tank cleaning services using advanced German technology](#), introduced for the first time in Nepal. Our multi-stage process ensures deep cleaning, removes harmful contaminants, and maintains water hygiene for safe and healthy usage.

3

3. AMC SERVICE FOR WTP/STP/ETP & MORE

Supriya Water Technology offers professional [AMC \(Annual Maintenance Contract\)](#) services for all types of [water treatment systems, including WTP, STP, ETP, domestic RO, and industrial RO](#). Our expert team ensures regular maintenance, optimal performance, and extended system life with reliable, end-to-end service solutions.

4

4. WASTE WATER TREATMENT SYSTEM

Supriya Water Technology provides professional services for [wastewater treatment systems](#), ensuring efficient operation and compliance with environmental standards. Our expert team handles installation, maintenance, and system optimization for STP, ETP, and other wastewater solutions, delivering reliable performance and sustainable results.

5

5. WATER TREATMENT SYSTEM

Supriya Water Technology offers professional installation and commissioning services for all types of [water treatment systems](#). Our experienced team ensures precise setup, smooth commissioning, and optimal performance of WTP, RO, softeners, and filtration units for reliable, long-term operation.

6

6. REVERSE OSMOSIS WATER PURIFICATION

Supriya Water Technology offers professional installation of [RO water systems ranging from 25 LPH to 12,000 LPH and beyond](#). Our customized solutions cater to domestic, commercial, and industrial needs, ensuring high-quality purified water with efficient and reliable performance.
